

I was in Raleigh NC for a NCSU function and heard the DJ's telling folks to call in about hitting bicyclists. Not too long ago, I was hit in Chas, SC by a car. This "discussion" on the radio was a far cry from what is reasonable or wise. The folks that called in actually thought it was cool to play hit and miss with a bicycle.

I ask, I beg, I pray that you deem this kind of assault to be dangerous, lacking, and predatory. How in the world do these guys get the freedom to use the airways to express a desire to kill or mame.

Pls help me understand how they are allowed this prilvlage?
